WHO ARE WE?

Founded in 2015, *Françoise pour l'œuvre contemporaine*'s main mission is to accompany emerging artists towards their markets. It supports emerging contemporary creation through its private and public professional networks, its international competition, its programme of creation and research residencies as well as its numerous exhibitions in partnership with, among others, the Francès Corporate Foundation and Galerie F.

Its actions are based on a platform called françoiseartmemo.fr. This platform serves both as a showcase for the works and news of registered artists and as a relay for calls for projects from institutions and companies. It puts the artists in contact with art professionals, but also with companies within the framework of various projects aiming to make their work known or to promote it.

FRANÇOISEARTMEMO IS :

- A free and selective digital platform, with over **500 artists** and nearly 30 cultural structures listed.
- An annual international competition: the **Françoise International Competition** accompanies artists on immersive projects. Its contours are redefined every year to adapt to the expectations of the partner and to encourage the creativity of the artists. Discover our past projects on our website.
- **Residency programmes for artistic creation and research**, notably at the Cité Internationale des Arts in Paris. In 2022, we welcomed two Austrian artists, Nanna Kaiser and Max Freund.
- **A local cultural collective**
- **Workshops, studio visits and exhibition projects**
- **Social and educational programmes** whose quality has enabled the association to become a member of Clubs for UNESCO in January 2020.
